

List of Safety Precautions

We will do what it takes to keep the safety of the everyone paramount.

Our goal is to return to dancing!

- All Government regulations in effect at the time of the competition will be followed.
- No on deck area. All dancers will enter from where they are seated.
- All events in each level and style will be danced together. Single dance followed by Multi-Dance, and Scholarship events in the same levels and styles. This will help to keep the minimum number of dancers and guests in the ballroom at any one time and allow competitors to compete and then leave if they wish.
- Bottled water will be provided for competitors.
- There will be changing rooms but the number of people allowed in at one time will probably be limited so plan extra time to change or make other arrangements. Wear your costume to the venue if practical or consider getting a room for the day. The rate is very reasonable.
- Attendees will be limited and be spaced out as per any guidelines that are in effect.
- Sanitizing stations will be set up.
- Separate tables for every studio group with hand sanitizer on all tables.
- Tables properly separated
- Once daily temperature checks for all who enter the ballroom
- Separate entrance and exit
- All attendees and spectators always wear masks while NOT ON THE FLOOR, or while eating or drinking.
- All Officials to always wear masks while not eating or drinking (EMCEE excluded)
